About Us

Rona Elevators & Escalators is a globally recognized leader in vertical transportation solutions, dedicated to enhancing the way people move within buildings and making urban spaces smarter and more accessible. Based in the dynamic city of Dubai, we have expanded our footprint to include branches in Abu Dhabi, Sharjah, Bahrain, and India, allowing us to provide our world-class services to clients across diverse regions.

" Rona Elevators & Escalators is an ISO CERTIFIED Company based in Dubai with a Branch in ABU DHABI-SHARJAH-BAHRAIN-INDIA for providing complete solutions for VERTICAL TRANSPORTATION"

Our Vision

Our vision is to revolutionize vertical transportation, making it smarter, greener, and more efficient, thereby enhancing urban living. We aim to be the global leader in elevator and escalator solutions by continuously innovating and setting new standards in quality, safety, and sustainability. We envision a future where our advanced vertical transportation systems play a crucial role in creating accessible, efficient, and sustainable urban environments worldwide.

Our Mission

Our mission at Rona Elevators & Escalators is to deliver cutting-edge, energy-efficient elevator and escalator solutions that exceed customer expectations. We are dedicated to:

What Sets Us Apart

Our competitive edge lies in our ability to combine technology, design, and engineering expertise to deliver products and services that surpass industry standards. We continuously strive to exceed customer expectations by offering tailored solutions and ensuring the utmost reliability and performance in every project.

Global Reach, Local Expertise

With a global network, we can seamlessly execute projects worldwide, while our local presence allows us to understand and cater to the unique needs of each market. This dual approach enables us to consistently deliver on our promise of excellence.

Why Choose Us

Product Categories Elevators

Panoramic Elevator

The Rona Panoramic Elevator is a masterpiece of modern engineering, designed to offer a stunning 360-degree view while ensuring a smooth and luxurious ride. With its sleek, round glass design, it seamlessly blends into any architectural setting, providing an unobstructed view of the surroundings. Ideal for high-rise buildings, shopping malls, and other public spaces, the Rona Panoramic Elevator combines advanced technology with aesthetic appeal. It features energy-efficient operation, silent movement, and the highest safety standards, making it a perfect choice for those seeking both functionality and elegance in vertical transportation.

Passenger Elevator

Stylish and reliable transport for both residential and commercial buildings. Customizable to meet specific design and functionality requirements.

Home Elevator

Convenient and stylish elevators designed for residential use, enhancing accessibility and comfort.

Cargo Elevator

Robust elevators designed for transporting heavy goods efficiently in commercial and industrial settings.

Hospital Elevator

Specialized elevators tailored for healthcare facilities, ensuring smooth and reliable patient transport.

Dumb Waiter

Compact elevators ideal for transporting small items between floors in restaurants, hotels, and homes.

Platform Lift for Shops

Small lifts designed to enhance accessibility in retail environments.

Chair Lift

Comfortable and safe lifts for individuals with mobility challenges, ensuring easy access to different floors.

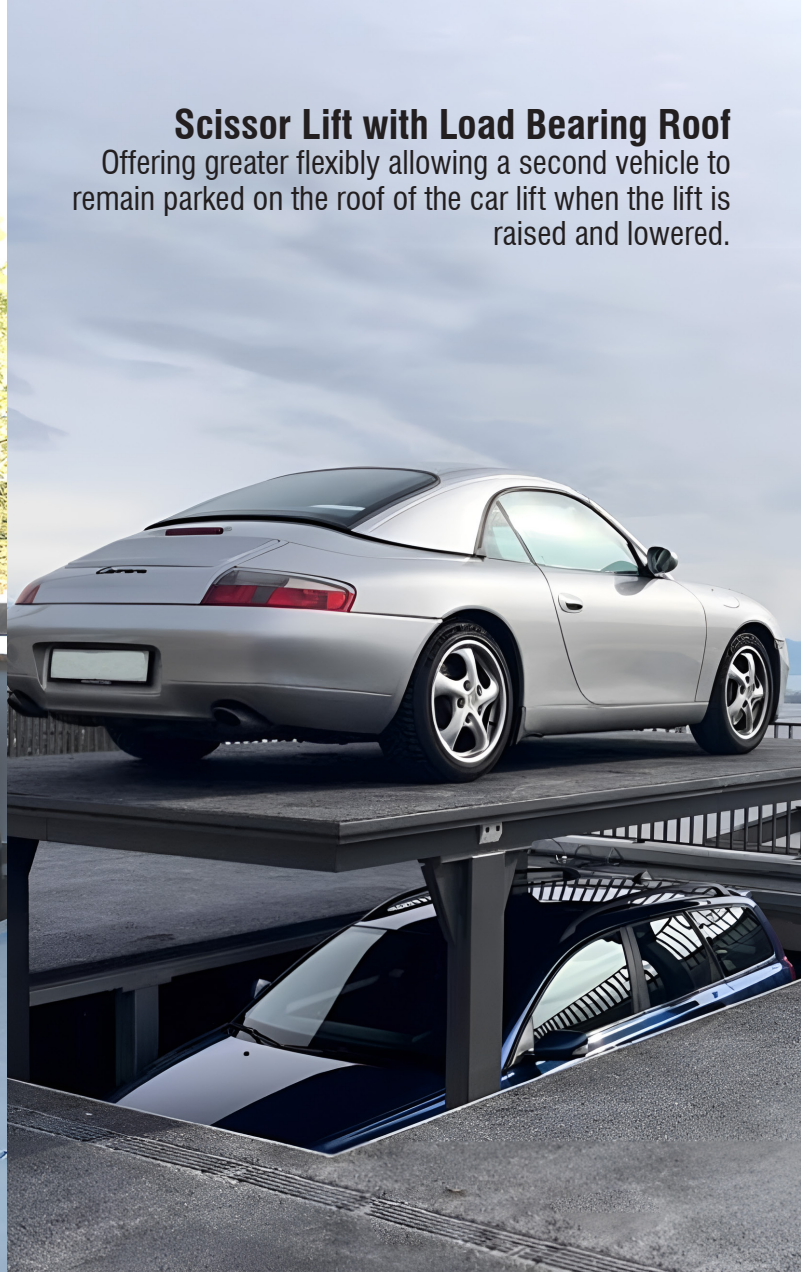

Swimming Pool Lifts

Specialized lifts designed for safe and easy access to swimming pools.

Scissor Lift with Load Bearing Roof
Offering greater flexibility allowing a second vehicle to remain parked on the roof of the car lift when the lift is raised and lowered.

Scissor Elevator
Heavy-duty elevators for lifting vehicles and other large loads, often used in industrial applications.

Car Elevator
Innovative solutions for optimizing vehicle parking and transport within buildings.

Turn Table

The Turn Table is an innovative solution designed to optimize vehicle positioning and storage. Ideal for maximizing space in parking facilities and garages, it allows effortless 360-degree rotation of vehicles for easy parking and retrieval in tight spaces. With robust construction and user-friendly operation, the Turn Table enhances convenience and efficiency in vehicle management.

Car Parking Systems

Efficient systems designed to maximize parking space in congested areas.

Travellator

Rona Travellator is dedicated to enhancing the convenience and efficiency of horizontal transportation. Our advanced moving walkways are engineered to provide seamless and effortless transit in various high-traffic environments, such as airports, shopping malls, and transportation hubs.

With a focus on cutting-edge technology and user safety, our travellators ensure smooth and reliable operation, minimizing transit time and enhancing the overall user experience. Whether facilitating quick transfers between terminals or providing easy access to different levels within a commercial space, Rona Travellator sets the standard for superior performance and reliability.

By choosing Rona Travellator, you are investing in state-of-the-art solutions that prioritize durability, efficiency, and passenger comfort. Our commitment to quality and innovation ensures that every project we undertake meets the highest industry standards, making us a trusted partner in the field of horizontal transportation.

Escalator

Rona Escalator is committed to revolutionizing vertical transportation with our state-of-the-art escalator solutions. As a leading provider in the industry, we deliver advanced, reliable, and efficient escalators for a wide range of environments, from shopping malls and airports to commercial buildings and public transport hubs. Our escalators are designed with cutting-edge technology to ensure seamless operation, safety, and energy efficiency. Equipped with advanced safety features such as automatic emergency stop buttons, anti-slip surfaces, and handrail sensors, our escalators guarantee the highest level of passenger safety.

At Rona Escalator, we prioritize both aesthetics and functionality. Our escalators are crafted to complement the architectural style of any building, with a variety of customizable options in finishes, colors, and materials. Our experienced team of engineers and technicians provides exceptional service from consultation and installation to ongoing maintenance, working closely with clients to deliver tailored solutions that exceed expectations. Our dedication to quality, safety, and customer satisfaction has earned us a reputation as a trusted partner in the vertical transportation industry, making Rona Escalator your go-to provider for excellence and innovation.

Moving Walk

Rona Moving Walk is at the forefront of innovation in horizontal transportation solutions, providing cutting-edge moving walkways designed to enhance the efficiency and convenience of pedestrian movement in a variety of settings. Our moving walks are ideal for airports, shopping malls, convention centers, and transportation hubs, offering a smooth, safe, and effortless travel experience. Built with advanced technology and durable materials, Rona Moving Walk ensures reliability and longevity, even in high-traffic environments. Key features include energy-efficient motors, anti-slip surfaces, and safety sensors that provide a seamless and secure journey for all users.

At Rona Moving Walk, we understand the importance of integrating functionality with aesthetic appeal. Our moving walkways are customizable to match the architectural design of any space, with options for different widths, speeds, and finishes. Our dedicated team of experts provides comprehensive services from initial consultation and bespoke design to professional installation and ongoing maintenance, ensuring that each project meets the highest standards of quality and performance. Committed to customer satisfaction and excellence, Rona Moving Walk is your trusted partner for innovative and efficient horizontal transportation solutions that transform public spaces and enhance the user experience.

Major Service Sectors

Villas

Tailored elevator solutions designed for luxurious and convenient vertical transportation within private residences.

Residential Buildings

Reliable and efficient elevators that enhance the living experience in multi-story residential complexes.

Commercial Buildings

Advanced elevator and escalator systems to support high traffic and ensure smooth operations in business environments.

Public Buildings

Robust and user-friendly transportation solutions for government buildings, museums, and other public spaces.

Industrial Facilities

Heavy-duty elevators built to withstand demanding industrial applications, ensuring safe and efficient movement of goods and personnel.

Mixed-Use Buildings

Versatile transportation systems designed to meet the diverse needs of multi-purpose developments combining residential, commercial, and retail spaces.

Parking Structures

Innovative car elevators and parking systems that maximize space utilization and enhance convenience in parking facilities.

Educational Institutions

Safe and reliable elevators to facilitate smooth access across schools, colleges, and universities.

Transport Hubs

Efficient and durable moving walks and escalators designed to handle high volumes of passengers in airports, train stations, and bus terminals.

Accessibility Upgrades

Specialized solutions such as platform lifts, chair lifts, and stairlifts to improve accessibility and mobility for all users.

Comprehensive Elevator Maintenance and Service Features

Routine Inspections

Regular checks of all elevator components to ensure they are functioning properly.

Compliance Checks

Ensuring the elevator meets all local safety codes and regulations.

Adjustments

Fine-tuning components to ensure optimal performance, such as door sensors and leveling accuracy.

Performance Monitoring

Using diagnostic tools to monitor the elevator's performance and preemptively identify potential issues.

Testing Safety Features

Ensuring emergency brakes, alarms, and other safety features are operational.

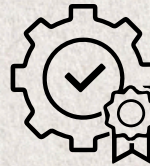

24/7 Callback Availability

Ensuring immediate response to any service requests at any time.

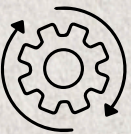

Replacing Worn Parts

Identifying and replacing parts that show signs of wear and tear.

Genuine Spare Parts

Using only authentic elevator spare parts for replacements.

Updating Software

Upgrading elevator control systems and software to the latest versions for improved performance and safety.

Routine Maintenance

Oiling and greasing moving parts to reduce friction and wear.

Emergency Repairs

Providing rapid response services to address any unexpected breakdowns or malfunctions.

Cleaning

Removing dust and debris from the elevator shaft, machine room, and other components.

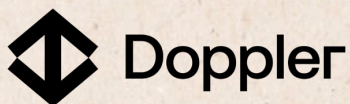

Annual Maintenance Contract (AMC)

Ensure peak performance year-round with our Annual Maintenance Contract. Benefit from regular inspections, timely repairs, and proactive maintenance to keep your elevators and escalators running smoothly.

Our Trusted Suppliers

Rona Elevators & Escalators takes pride in partnering with renowned industry leaders to ensure we deliver top-notch vertical transportation solutions. Our strategic alliances with esteemed manufacturers include:

DOPPLER ELEVATORS (Greece): A European manufacturer of lift components, complete elevator systems, escalators, auto walks, and car park systems, all designed to meet European standards. Their commitment to quality and reliability aligns seamlessly with our own.

MODERN FUJI Elevators (Osaka, Japan): An industry-leading research and development and manufacturing company with a JV plant in Suzhou, China. They manufacture lifts and escalators based on Japanese advanced technology, emphasizing high quality, safety, and durability. We proudly incorporate their products into our offerings.

Rona Fuji is a trusted brand that delivers innovative and reliable elevator and escalator solutions. We offer a comprehensive range of products for vertical transportation, from high-speed elevators to energy-efficient escalators, all designed for safety, efficiency, and seamless integration into your buildings. Our commitment to quality and advanced technology ensures that each product enhances the functionality and aesthetics of your infrastructure, providing superior performance and user experience.

Our collaboration with these esteemed suppliers allows us to offer you the finest in vertical transportation solutions, backed by a commitment to quality, safety, and innovation.
